CORPORATE PROFILE / 2026

Azaan Trading & Contracting Company

ENGINEERING. CONSTRUCTION. TECHNICAL SERVICES.

Engineering excellence. Built on trust.

Global standards. National commitment.
In strategic collaboration with SPC-KSA.

01 / THE COMPANY

Local commitment. International capability.

Pakistan-based engineering, construction and technical services, backed by strategic collaboration with SPC-KSA.

Azaan Trading & Contracting Company brings together local engineering teams and Saudi operational experience to support infrastructure, industrial facilities and commercial developments.

From design and procurement to construction, commissioning and long-term maintenance, our focus is disciplined delivery, technical precision and lasting client partnerships.

INSIDE THIS PROFILE

03 / Vision, mission & values

04-07 / Engineering & lifecycle services

08-10 / Experience & project photography

11-12 / People, standards & the next chapter

02 / OUR DIRECTION

Precision in our work. Integrity in our purpose.

A clear ambition, supported by practical commitments.

VISION

A trusted engineering partner

To establish ATC among Pakistan's most reliable and technically capable contracting companies, combining Saudi engineering expertise with international project standards.

MISSION

Deliver with confidence

To deliver engineering, infrastructure and maintenance services with integrity, safety, efficiency and technical precision, while building long-term client partnerships.

THE VALUES THAT GUIDE DELIVERY

01 Integrity & accountability

02 Technical excellence

03 Safety & sustainability

04 Innovation & reliability

05 Partnership & long-term value

03 / ENGINEERING CAPABILITIES

Strong foundations. Considered construction.

Civil and infrastructure works for industrial, commercial and residential environments.

01

Buildings & structures

Industrial and commercial buildings, warehouses, structural concrete and steelwork.

02

Site infrastructure

Roads, boundary walls, drainage, sewerage and supporting site services.

03

Renovation & upgrades

Facility renovation, structural upgrades and improvements to existing assets.

04

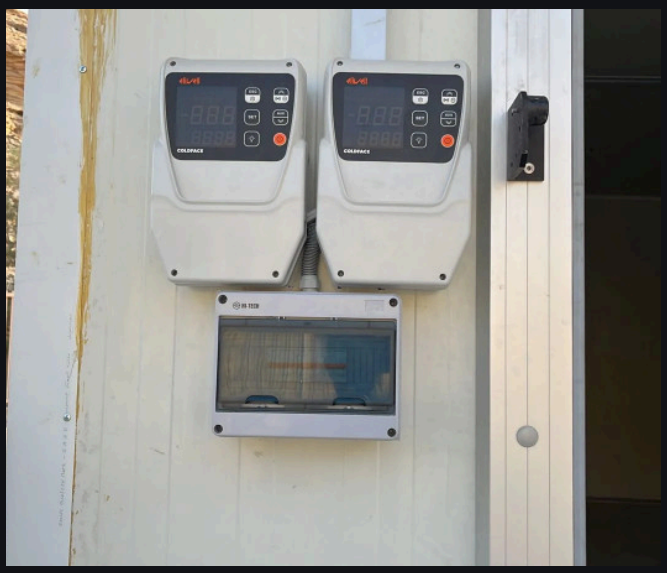

Design & coordination

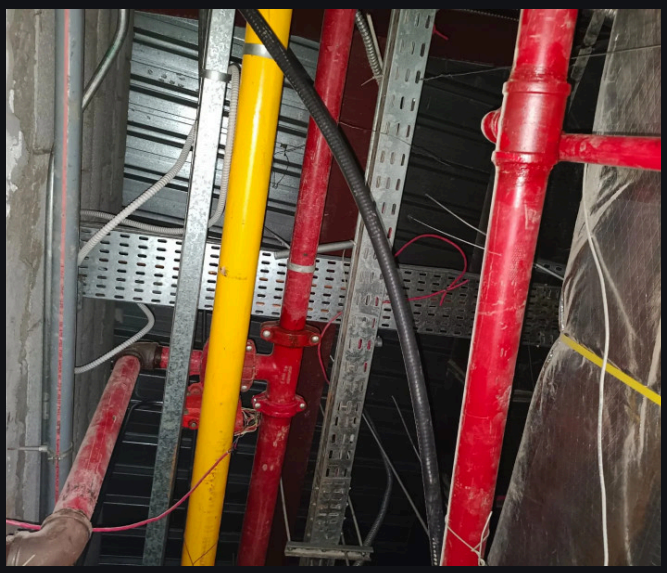

Engineering consultancy, architectural planning, interior design and site supervision.

04 / BUILDING SYSTEMS

Power that performs. Systems that work.

Coordinated electrical and mechanical services for reliable building and facility operation.

ELECTRICAL & POWER

From distribution to backup

MV/LV networks; transformers and RMUs; substation installation, testing and maintenance; power cabling; generators; lighting and electrical automation.

MECHANICAL & HVAC

Comfort, control & protection

HVAC, chillers and ventilation; cold storage and walk-in freezers; industrial exhaust; wet and dry firefighting; piping, plumbing and equipment maintenance.

DESIGN / INSTALLATION / TESTING / MAINTENANCE

05 / SPECIALIST CAPABILITIES

Integrated thinking. Specialist delivery.

Engineering support for demanding operating environments.

01

Oil, gas & petroleum

Petrol pump civil works, fuel tanks and dispensing systems, pipelines, pumping systems, calibration and depot upgrades.

02

Defense infrastructure

Camp infrastructure, power and HVAC maintenance, communication installations, access control and secure facility support.

03

Smart infrastructure

Data center infrastructure, CCTV, access control, building automation, fiber networks and backup power systems.

04

Industrial maintenance

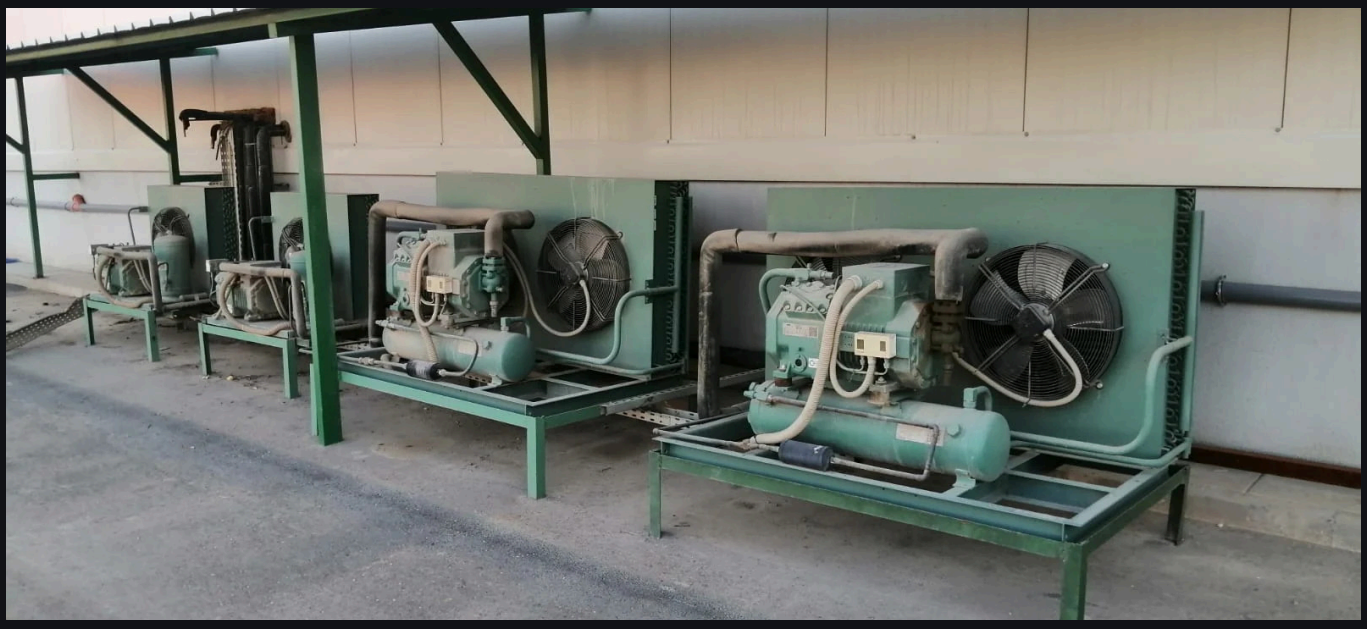

Electrical and mechanical maintenance, equipment overhaul, system upgrades, preventive programs and technical contracts.

Technical discipline across every interface.

06 / LIFECYCLE SERVICES

Performance beyond project handover.

Long-term operational support, preventive maintenance and technical procurement.

OPERATIONS & MAINTENANCE

Keep critical assets working

Substations, generators, HVAC, firefighting and water systems. Annual maintenance contracts, preventive programs and technical support.

TRADING & PROCUREMENT

The right equipment. The right support.

Electrical and mechanical equipment; switchgear and transformers; HVAC, fire and plumbing materials; industrial safety equipment and spare parts.

DESIGN > PROCURE > BUILD > COMMISSION > MAINTAIN

07 / INTERNATIONAL EXPERIENCE

Saudi experience. Shared capability.

SPC-KSA brings engineering supervision, operational discipline and project experience to the ATC collaboration.

SELECTED SPC-KSA EXPERIENCE

American military facilities

Electrical and HVAC maintenance, camp infrastructure and power distribution support.

Herfy Foods Company

HVAC, chillers, industrial exhaust and Greenheck ventilation systems.

Crown Gulf / Badoor Al Emar

Transformer and RMU works, electrical testing, MV infrastructure and civil support.

ROSHAN Villas / NEOM power generation

Villa construction, structural works and site coordination; technical participation in substation and transformer support.

08 / PAKISTAN OPERATIONS

Local knowledge. Practical execution.

Infrastructure development, facility engineering and technical services for Pakistan’s public, private and industrial sectors.

KEY CLIENT EXPERIENCE

Army Welfare Trust

Our work with Army Welfare Trust includes renovation, infrastructure upgrades and technical maintenance within AWT-owned and operated facilities.

01

Civil & facility upgrades

Roads, underground electricity, drainage, sewerage, lighting poles and building renovation.

02

MEP & maintenance

Mechanical, electrical, plumbing and HVAC works, supported by facility maintenance services.

WIDER OPERATIONAL FOCUS

Power distribution, industrial maintenance, fuel infrastructure, high-rise construction, secure facilities and smart systems. Local delivery is supported by engineering consultancy, architectural planning and design services.

09 / IN PICTURES

The work.
The detail.

Selected photographs from the supplied project collection and SPC company profile.

01 / INDUSTRIAL FACILITIES

02 / STRUCTURAL CONSTRUCTION

03 / LANDSCAPE & FINISHING

04 / ELECTRICAL INSTALLATIONS

05 / MECHANICAL EQUIPMENT

06 / SITE EXECUTION

10 / DELIVERY STANDARDS

People. Process. Responsibility.

Technical capability is supported by clear supervision, coordinated teams and consistent operating practices.

QUALITY & SAFETY

Built into the work

ISO-aligned quality procedures; health, safety and environmental compliance; preventive safety systems; a zero-accident target; OEM-standard maintenance and energy-efficient solutions.

ORGANIZATION

Specialists, working together

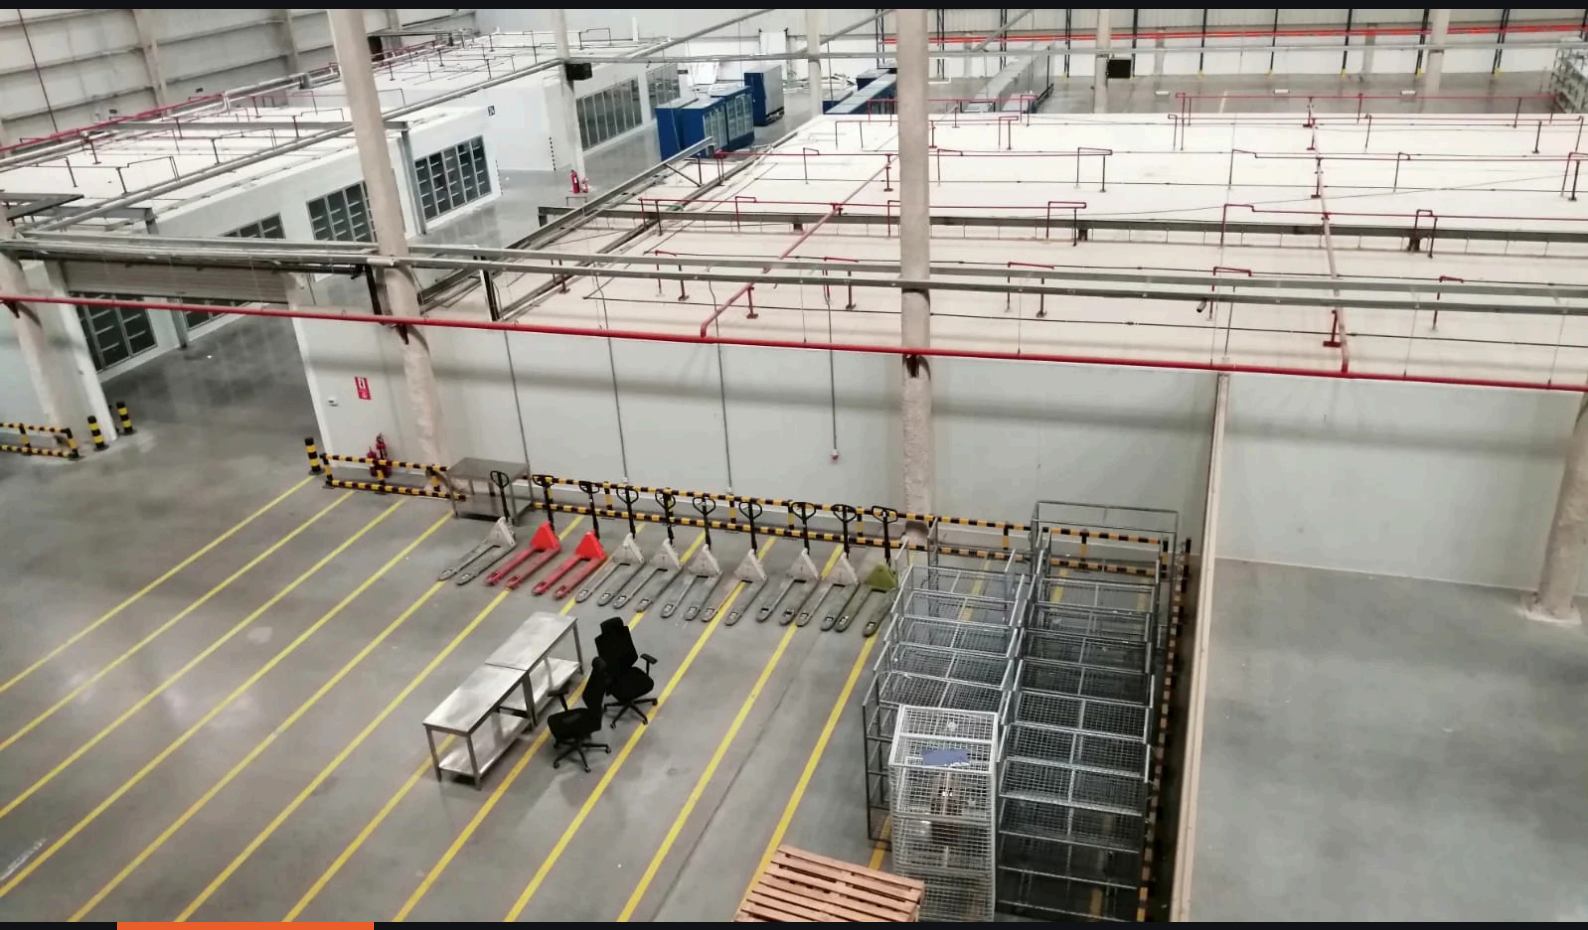

Civil, electrical, mechanical, oil and gas, defense and smart-system teams, supported by procurement, finance, HR, administration, health, safety and quality functions.

2025-2030 / FUTURE OUTLOOK

A regional engineering and contracting alliance.

ATC and SPC-KSA aim to expand across secure infrastructure, power and energy, industrial and petroleum services, renewable energy, smart systems and construction in Pakistan.

Integrity. Safety. Technical precision.

AZAAN TRADING & CONTRACTING

Let’s build what comes next.

Engineering excellence. Global standards.
National commitment.

PAKISTAN / STRATEGIC COLLABORATION WITH SPC-KSA

Civil construction • Building systems • Technical services
