A/C DUCT & KITCHEN EXHAUST DUCT CLEANING

SPC IS SPECIALIZED IN CLEANING AND SANITIZING OF DUCTS FOR AIR CONDITIONING AND KITCHEN EXHAUST SYSTEMS.
SPC is having trained technicians and use safe chemicals necessary which are approved to apply for better cleaning services.

WE ARE PLEASED TO GIVE YOU A BRIEF SUMMARY OF THE SERVICES THAT WE DO IN THIS AREA:

A/C DUCT CLEANING:-

A/C Duct cleaning is Linked with public health in all zones of life (commercial & residential) due to having a need to be free of dirt, and this dirt causes a lot of diseases such as asthma, allergies, respiratory diseases etc. and in long run many kinds of bacteria and fungi can take place in ducts because of humidity, which need to be cleaned and sanitized using safe chemicals for the removal of such plankton and others.

KITCHEN EXHAUST DUCT CLEANING:-

Cleaning process of kitchen exhaust duct & fans is to remove grease and oil accumulated inside the duct and exhaust fan, which weakens the suction force to pull the fumes evaporating from the cooking ranges, grillers and fryers inside the kitchen, and may lead to the lack of suction of fumes and gases from kitchen, as well as oil and grease on the fans can cause a fire due to presence of these substances, which need to be cleaned, as it is the only solution to prevent the system.
