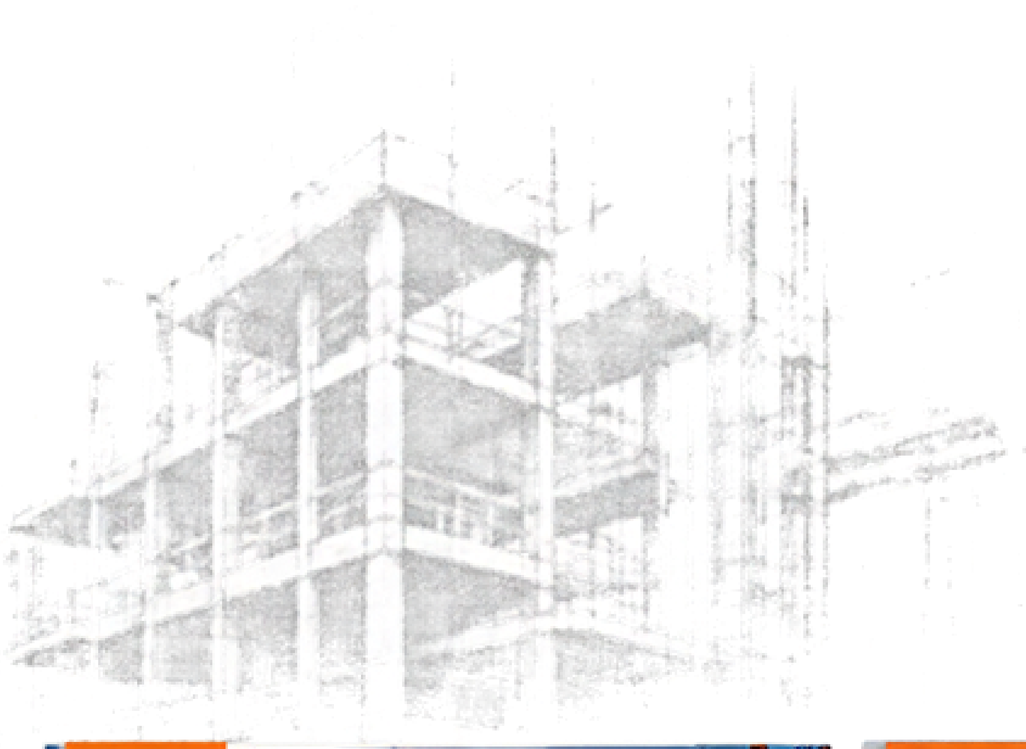
AZAAN TRADING & CONTRACTING | JV | RISING SUN CONSTRUCTION LLP

ATC / ABOUT US

Three Core Divisions. One Integrated Partner.

Azaan Trading & Contracting (ATC) integrates engineering and construction, technical consultancy, and strategic procurement to support civil, infrastructure, MEP, industrial, and specialized projects from planning through execution and delivery.



ATC INTEGRATED DELIVERY MODEL

3 CORE PILLARS

AZAAN TRADING & CONTRACTING

01 **Engineering & Construction**
Civil, Infrastructure & MEP

02 **Engineering Consultancy**
Technical Advisory & Planning

03 **Trading & Procurement**
Strategic Sourcing & Supply

COMPLETE PROJECT SOLUTIONS

CONCEPT ← PLANNING ← EXECUTION ← HANDOVER

01

Engineering & Construction

Civil, infrastructure, MEP & industrial execution

02

Engineering Consultancy

Technical advisory, feasibility & design coordination

03

Trading & Procurement

Strategic sourcing, equipment & material supply

OUR APPROACH

Integrated Capabilities.

Coordinated Delivery.

Technical insight, construction capability and procurement coordination in one connected approach.

THREE CORE DIVISIONS / ONE CONNECTED MODEL

01 — 03

01

Engineering & Construction

Civil works, infrastructure, MEP systems and industrial facilities, built and managed to specifications.

02

Engineering Consultancy

Technical advisory, feasibility and planning support, and design review before work starts.

03

Trading & Procurement

Equipment and material sourcing, supplier coordination and compliance support, delivered to site.

OUR VISION

To be a trusted partner for integrated engineering, consultancy, construction, and procurement solutions.

OUR MISSION

To connect technical expertise, practical execution, and strategic sourcing in a coordinated approach that supports successful project delivery.

WHAT WE STAND FOR

Core Values

Principles behind every project.

Collaboration

Coordinated teamwork across engineering disciplines, partners, clients and site teams.

Technical Integration

Engineering insight, planning and design review connected to execution.

Delivery Discipline

Project coordination from sourcing to site execution and handover.

ATC / SERVICES

Engineering, Construction & Procurement.

Engineering, construction and procurement services across Pakistan, Saudi Arabia and Bahrain.

CORE DELIVERY DISCIPLINES

FROM PLANNING THROUGH EXECUTION

01 Design & Engineering

Technical planning, design and coordination

02 Civil & Infrastructure

Buildings, structural works and site services

03 Electrical, Power & Mech

Electrical and mechanical systems

04 Finishing Works

Architectural and finishing works

05 Security, Smart & IT

Security and intelligent infrastructure

06 Defense & Operations

Specialized infrastructure and operations

07 Oil, Gas & Petroleum

Petroleum and industrial project systems

08 Industrial Maintenance

Industrial maintenance and plant support

Engineering Consultancy & Advisory

Technical coordination and professional advice

Trading & Technical Procurement

Specialist sourcing and material supply

ATC / SERVICES DETAIL / 01–05

Engineering.

Built to Deliver.

Civil, MEP, design and intelligent infrastructure — delivered as coordinated disciplines.

SCOPE OF SERVICES / TECHNICAL CAPABILITIES

DISCIPLINES 01–05

01 — EPC DESIGN

Design & Engineering

Architectural, structural, MEP and infrastructure design services.

Architectural & MEP Design
Architectural drawings, HVAC, electrical and structural design.

Infrastructure & Site Planning
Roads, bridges, utilities, drainage and master planning.

02 — CIVIL WORKS

Civil & Infrastructure Construction

Earthworks, reinforced concrete, structures and turnkey commissioning.

Civil Construction Scope
Warehouses, superstructures, deep piling and asphalt paving.

Execution & Handover Process
Batch plants, QA/QC, HSE governance and as-built records.

03 — POWER & MEP

Electrical, Power & Mechanical Systems

Electrical distribution, substations, HVAC plants and process piping.

Electrical & Grid Systems
MV/LV boards, transformers, RMUs and diesel generators.

Mechanical & HVAC Plants
Chilled water, AHUs, ventilation ducts and process piping.

04 — FIT-OUT

Finishing Works

Interior turnkey fit-outs and specialized architectural finishes.

Interior Fit-Out & Joinery
Woodwork, false ceilings, glazing, fabrication and flooring.

Specialist Facades & Finishes
Cladding, waterproofing, insulation and protective coatings.

05 — SMART BUILDINGS

Security, Smart & IT Infrastructure

BMS, security systems, biometric access and data infrastructure.

Surveillance & Physical Security
IP CCTV, biometrics, fire detection and control rooms.

Building Automation & IT Networks
BMS/BAS, facility sensors, data centres and structured cabling.

INTEGRATED PROJECT DELIVERY

DESIGN → PROCURE → CONSTRUCT → COMMISSION

ATC / SERVICES DETAIL / 06–10

Specialist Services.

Operational Depth.

Secure works, industrial facilities, consultancy and technical sourcing.

SCOPE OF SERVICES / TECHNICAL CAPABILITIES

DISCIPLINES 06–10

06
SECURE INFRASTRUCTURE

Defense & Operations

Secure facilities, mission-critical infrastructure and asset operations.

Defense Base Infrastructure
Military civil works, perimeter barriers, command MEP and HQ.

Critical Facility Operations
24/7 response, power resilience, logistics and facility audits.

07
ENERGY INFRASTRUCTURE

Oil, Gas & Petroleum

Fuel-sector civil and electromechanical projects and specialist QA.

Refinery & Fuel Infrastructure
Retail stations, storage depots, tanks and process piping.

Hazardous-Area Safety & QA
Safety planning and quality assurance for fuel-site works.

08
PLANT O&M

Industrial & Factory Maintenance

Planned and reactive maintenance across industrial facilities.

Preventive & Corrective O&M
PPM programmes, annual maintenance and breakdown response.

Condition Monitoring & Asset Care
Asset inspections, operational monitoring and ongoing upkeep.

09
PROJECT ADVISORY

Engineering Consultancy & Technical Advisory

Independent engineering advice, PMC and design coordination.

Project Advisory & PMC
Feasibility, project oversight and engineering coordination.

Technical Governance & BIM
Code coordination, documentation and technical reviews.

10
GLOBAL SOURCING

Trading & Technical Procurement

International sourcing, industrial equipment and procurement support.

Equipment & Materials Supply
Electrical gear, HVAC equipment, industrial PPE and machinery.

Procurement Governance & FAT
Supplier coordination, factory acceptance and logistics.

SPECIALIST DELIVERY & OPERATIONAL SUPPORT

COMPLIANCE → OPERATE → MAINTAIN → SUPPORT

CLIENTS & MARKET POSITION

Trusted by Industry Leaders

Government, defense and private-sector clients across the MENA region.

8+ ENGINEERING DIVISIONS

50+ PROJECTS DELIVERED

3 COUNTRIES OF OPERATION

15+ YEARS OF EXPERIENCE
